I just looked, I emailed you everyday this week. I even do it when I'm at a ski trip with a time zone change and hang over. :)

Cool thanks. Now that you mention it there was a another day this week, I think Tuesday when you didn't email me! I'm so sorry, I just thought maybe it was not a good day for you or whatever. Shit. I'm sorry I didn't tell you earlier. It resonated with me today because it was the second time this week... ☹
